INTRODUCTION TO THE K-12 MONTANA ENGLISH LANGUAGE ARTS AND LITERACY CONTENT STANDARDS

This document outlines the Montana Content Standards for English Language Arts and Literacy. Adopted in 2025 and implemented in 2027, the standards are designed to expose students to ELA content that will ensure their readiness for college, career, and community engagement. The Montana Content Standards for English Language Arts and Literacy do not dictate curriculum or pedagogy, but rather, drive curriculum creation. The K-12 content standards describe what students should know, understand, and be able to do in these content standards. These K-12 standards define end-of-year expectations and a cumulative progression designed to enable students to meet college and career readiness expectations no later than the end of high school (Administrative Rule **10.53.101**).

The Montana English Language Arts and Literacy Content Standards also reflect the constitutional mandate to provide instruction that includes the distinct and unique heritage and contemporary contributions of American Indians in a culturally responsive manner (Montana Constitution Article X Section 1(2) and statutes §20-1-501 and §20-9-309 2(c), MCA). This allows students to recognize and respect the historical and contemporary knowledge across the unique cultures of Montana's 12 federally recognized tribes, ensuring that the teaching of ELA in Montana integrates cultural understanding, respect, and relevance for all Montana students.

Purpose of this Document

This document serves as a comprehensive resource to support a K-12 perspective on ELA education in Montana and is designed to assist educators, schools, and districts in understanding and implementing the Montana Content Standards for English Language Arts and Literacy. While it does not provide in-depth, grade-specific guidance, those resources will be made available separately. Specifically, this resource aims to:

- Clarify the purpose and goals of the Montana Content Standards for English Language Arts and Literacy.
- Provide an overview of the standards for educators, families, students, and others invested in K-12 ELA education.
- Offer guidance on ELA instruction from a K-12 perspective, while directing users to grade-specific guidance documents for more detailed recommendations.
- Support schools and districts in implementing ELA practice and content standards effectively across all grade levels.

*For grade-level support, please refer to the **expanded grade-level specific guidance documents**, which outline special considerations, examples, and elaborations by grade.*

Frequently Asked Questions - Navigating the K-12 Standards

What are the standards?

Content standards define the knowledge or skills that every student should know and be able to do at the conclusion of a particular grade level (REL Southeast, 2020). Montana's ELA content standards begin with kindergarten and continue through 12th grade, providing a clear progression of learning that builds a strong foundation in literacy concepts and skills related to reading, writing, speaking, and listening.

In addition, Montana includes K–12 ELA **literacy practices** intended to guide the development of cognitive and "soft" skills such as critical thinking, collaboration, and more in age-appropriate ways throughout a student's education. Literacy practices are the broad habits, skills, and ways of thinking that are essential for effectively and authentically engaging with texts and the real world. They are intended to promote a deeper understanding of English language arts by encouraging students to develop and practice transferable skills necessary for to pursue diverse opportunities and success in post-secondary education, careers, and community participation in a rapidly evolving world. The literacy practices are designed to be integrated throughout the teaching and learning of ELA in combination with the ELA content standards.

How should the coding scheme be read and understood?

The Montana Content Standards for English Language Arts and Literacy use a structured coding system to help educators, schools, and invested parties efficiently locate individual standards within the general framework. The coding structure is consistent across K-12, although the inclusion of sub-standards as referenced with lowercase letters should be noted specifically for Reading - Foundational standards in grades K-3.

Elements across the K-12 Standards

K-12 standards follow a coding scheme that includes the following elements:

1. **State indicator: MT**
   Every Montana ELA content standard begins with the MT designation, signifying that the standard is unique to the state of Montana and reflects the standards Montana has codified within its Administrative Rules.

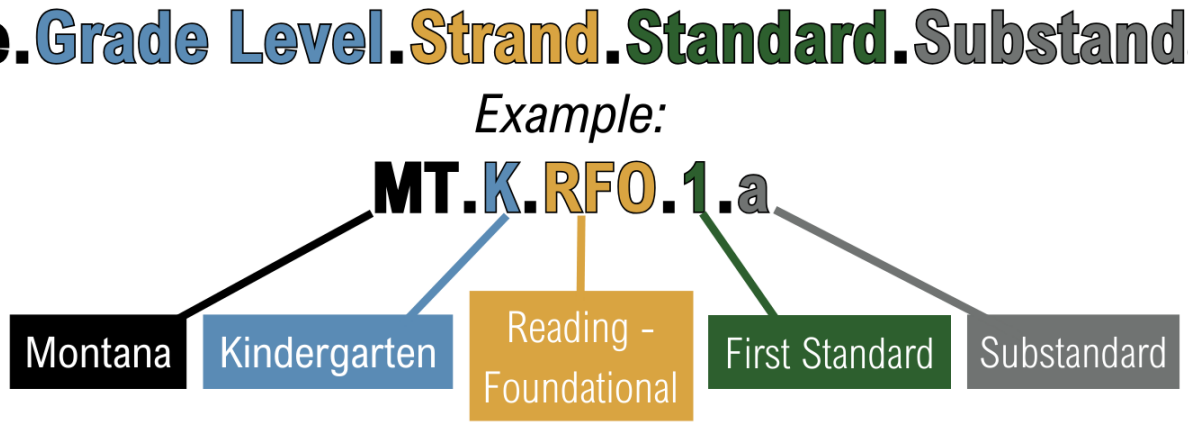

2. **Grade Level: Letter or Number**
   This element identifies the grade level of the standard:
   - Kindergarten is indicated by "**K**"
   - Grades 1-8 are represented by their respective numbers (e.g., "1" for Grade 1)
   - High School (9-12) standards are designated by "**9-10**" or "**11-12**."

3. **Strand: Abbreviated Representation**
   Each standard is categorized within a strand, represented by a short abbreviation. A **strand** within a set of K-12 content standards for ELA is a **broad organizational category** that groups related to standards around a key ELA concept or set of concepts (REL Southeast, 2020). Strands support the organizational structure and help illustrate the progression of literacy concepts and skills across grade levels. The strands within ELA include Reading, including the sub-strands of Foundational, Vocabulary, Fluency, and Comprehension; Writing; Research and Inquiry; and Speaking and Listening.

4. **Standard Item: Number**
   This element specified the standard's sequence within a particular strand. If a standard includes sub-items, as is the case for foundational reading standards in grades K-3, a letter may follow this number to indicate any subdivisions within the standard.

K-12 Coding Scheme Exemplar

For K-12 Standards, the structure follows the sequence **MT [Grade Level] [Strand] [Standard Number] [Substandard Letter]**, illustrated in the figure provided:

MONTANA'S K-12 LITERACY PRACTICES

Montana's Literacy Practices describe varieties of expertise that ELA educators at all levels should seek to develop in all students. These practices are based upon fundamental skills central to both ELA as well as general educational, career, and civic success.

As part of the revision process for Montana's ELA standards, the revision task force reviewed research compiled by the Regional Education Laboratory (REL) Northwest (see Appendix H: References). In condensing the English Language Arts and Literacy Standards, they elected to create literacy practices. This decision followed the lead of the mathematics content standards revision team, who had adopted the Common Core's Standards for Mathematical Practice in 2011 and revised them in 2023. While the ELA revision task force did not have prior Montana literacy practices to adapt, the adoption of these reflects similar literacy or humanities practices adopted by other states, as well as the Common Core Habits of Mind.

What is a Literacy Practice Standard?

In a broad sense, **literacy practices** are habits, behaviors, or ways of engaging in reading, writing, speaking, listening, and viewing used for meaningful purposes within a specific context. They are what students (and adults) *do* with texts, and they encompass skills (i.e., various reading strategies), social practices (collaboration or problem solving), and expectations surrounding reading and writing. The Literacy Practices differ from the grade-level ELA content standards in that they provide guidance for *how* students should engage with their learning, whereas the standards identify *what* students should learn by the end of a given grade level. Literacy practices broadly guide the instruction, and standards identify the skill. Literacy practices are not intended to be used as a checklist, a grading system, or a replacement for explicit and systematic literacy instruction.

The creation of Montana's Literacy Practices was primarily based upon the Common Core descriptions of Students Who are College and Career ready in reading, Writing, Speaking, Listening, and Language and the Montana's Mathematical Practices (adapted from the Common Core State Standards for Mathematical Practice). There is no one specific definition of literacy practices within the field of English language arts instructions; rather, researchers across disciplines have used the term to identify text-based and discipline-specific meaning making activities (Moje, 2008); multimodal meaning making (Kress, 2010); socio-cultural ways of using text (Street, 1995; Gee, 2015); and more. Montana's Literacy Practices are unique but share similarities with the Common Core student descriptors and Montana's Mathematical Practices linked above, as well as with frameworks that may be referred to within other states or contexts as graduate profiles, profiles of a learner, 21st century skills, literacy goals, lifelong practices, etc.

Montana's Literacy Practices are intended to serve similar—although not identical—instructional purposes as Montana's Mathematical Practices, which focus on the processes and practices students use to apply their mathematical knowledge flexibly, accurately, and efficiently across a variety of applications and scenarios (Harbin Miles & Williams, 2016). The Literacy Practices, while less instructionally prescriptive, also identify broad practices and purposes for which students should apply literacy knowledge across educational, interpersonal, job-related, and civic contexts. Teachers and designers of curricula, assessments, and professional development should connect Montana's Literacy Practices to the English Language Arts and

Literacy Content Standards, as embedding literacy practices within instructional activities can enhance and enrich ELA learning. The Literacy Practices support learning and often directly connect to specific ELA standards. They are also written with the intent of skill and knowledge transfer; educators are encouraged to make explicit connections to other contexts–both across content areas and related to students' own interests and career goals. As K-12 practices, Literacy Practices provide a guidepost for horizontal and vertical instructional coherence. Spaced repetition, or coming back to the practices in different learning contexts, is a learning practice that will improve retention of broad skills and help students transfer knowledge.

In addition to stating Montana's eight Literacy Practices, the following section provides a rationale for each of the practices, broad embedded skills that may be used to further define the practices, and a description of associated ELA content standards. Grade-level guidance documents will include specific suggestions for how educators and families might support students in engaging in the individual practices. Appendix C illustrates correlations between the ELA standards and Literacy Practices that are most apparently exemplified by or associated with the standard; however, these are intended to be utilized as a starting point and are not prescriptive, nor do the suggested associations rule out unlisted Literacy Practices from being paired with a given standard.

Literacy Practice 1 – Broad Literacy Engagement

Literate students routinely read a broad range of literary and informational texts for a variety of purposes.

Rationale

Routinely reading a wide range of literary and informational texts for varied purposes strengthens students' overall comprehension and ability to navigate complex ideas. Because the ways we read differ depending on genre and purpose, exposing students to diverse texts helps them learn how to appropriately shift their reading strategies. For example, we know to approach a poem differently than we do a lab report, or an opinion piece differently than a historical narrative. Making purpose explicit to students by providing them with short, clear purpose statements before reading further deepens comprehension by helping them focus on what matters most in a given text.

Broad reading across subject areas also builds background knowledge and vocabulary, two of the most powerful contributors to reading comprehension and learning. Through encountering many genres, structures, and styles, students develop a stronger rhetorical awareness of how texts work—how an author's choices about genre, text structure, audience, and purpose shape meaning. Regular reading across disciplines also supports writing development, as students study the features, language, and organizational patterns of the texts they encounter. By engaging widely and purposefully with texts, students become more flexible, informed, and confident readers and writers.

Broad reading includes attention by educators to text complexity, text accessibility, and knowledge-building coherence—not simply independent reading volume and variety. Educators should be careful to incorporate logical knowledge-building scope and sequences through the texts they teach in the classroom and include informational texts. Additionally, educators should attend to accessibility, providing supports for diverse learners within a Multi-Tiered System of Supports model and including texts by and about Montana Indigenous Peoples across grade bands that are not limited to specific units.

Embedded Skills

This literacy practice is comprised of the following broad skills, which students should be encouraged to demonstrate in developmentally appropriate ways:

- ✓ Adjust reading strategies based on genre and purpose.
- ✓ Read broadly across subject areas to increase background knowledge and vocabulary.
- ✓ Make connections and comparisons across texts and disciplines.
- ✓ Independently select and read texts in a range of genres suited to their interests.

Associated ELA Strands and Standards

While Literacy Practices can be applied across standards as teachers see fit within their instructional planning, Literacy Practice 1 – Broad Literacy Engagement is closely associated with the English Language Arts and Literacy Content Standards strand of **Reading**, including the Reading sub-strands of **Foundational**, **Comprehension**, **Fluency**, and **Vocabulary** standards. See the broad standard types below and refer to Appendix C to identify specific grade-level standards that most closely align with Literacy Practice 1 – Broad Literacy Engagement.

Reading – Foundational

- Understanding print concepts
- Understanding phonemic awareness
- Demonstrating decoding skills

Reading – Comprehension

- Citing textual evidence to support inference and analysis
- Identifying, explaining, or analyzing central themes and main ideas
- Identifying, explaining, or analyzing key details
- Identifying, explaining, or analyzing text purposes
- Identifying, explaining, or analyzing text features
- Identifying, explaining, or analyzing text structure

Reading – Fluency

- Demonstrating grade-level accuracy, rate, and expression while reading

Reading – Vocabulary

- Defining, inferring, or determining the effect of the meaning of words and phrases in context

---

Literacy Practice 2 – Collaboration

Literate students collaborate with others using active communication skills.

Rationale

Practicing collaboration in literacy helps students become effective communicators who engage thoughtfully with peers to build understanding, co-construct meaning, and refine ideas. Collaborative literacy experiences—such as peer discussions, group analysis, co-writing, and peer feedback—support social competence, self-confidence, and positive classroom engagement, while allowing students opportunities to articulate their ideas, listen actively, and respond respectfully to others.

Collaboration allows students to develop Social and Emotional Learning (SEL) skills, particularly those identified in the CASEL competencies of Social Awareness, Relationship Skills, and Responsible Decision-Making and in the related competencies of the Montana Whole Child Skill Development Competencies framework. Students develop social awareness by considering multiple perspectives, strengthen relationship skills through effective communication and using teamwork to problem solve, and practice responsible decision-making as they evaluate information and make choices together. By embedding collaborative literacy routines into instruction, students not only deepen comprehension and writing skills, but also develop essential interpersonal skills needed for academic, personal, and civic success.

Embedded Skills

This literacy practice is comprised of the following broad skills, which students should be encouraged to demonstrate in developmentally appropriate ways:

- ✓ Provide and utilize peer feedback when engaging in a recursive process of writing.
- ✓ Participate in collaborative peer discussions.
- ✓ Negotiate with peers to solve problems, co-write, or reach consensus.
- ✓ Work together with partners and small groups to develop proficiency across ELA standards.

Associated ELA Strands and Standards

While Literacy Practices can be applied across standards as teachers see fit within their instructional planning, Literacy Practice 2 – Collaboration is closely associated with the English Language Arts and Literacy Content Standards strands of **Reading** – **Vocabulary**, **Writing**, and **Speaking and Listening**. See these broad standard types below and refer to Appendix C to identify specific grade-level standards that most closely align with Literacy Practice 2 – Collaboration.

Reading – Vocabulary

- Developing word knowledge through shared reading and conversation

Speaking and Listening

- Participating in a range of collaborative discussions

Writing

- Developing writing by engaging in a recursive process that includes feedback

---

Literacy Practice 3 – Creativity

Literate students engage creatively to express their thoughts, deepen their understanding, and make connections.

Rationale

Practicing creativity allows students to synthesize their learning by making connections across texts, ideas, and experiences while expressing understanding in varied and authentic ways. Creative literacy experiences—such as inquiry-based projects, multimodal compositions, choice-driven writing, and interpretive responses—increase student ownership of learning and support intrinsic motivation by giving students opportunities to explore their voice and practice agency.

A focus on creativity also aligns with project- and inquiry-based learning and provides students with opportunities to experience productive struggle through decision making, which strengthens resilience and supports emotional development. Engaging in creative problem-solving encourages persistence, flexibility, and reflection, while also supporting mental well-being for both students and teachers. By embedding creativity into literacy instruction, educators deepen comprehension and communication skills while fostering motivated, resilient learners prepared for complex academic and real-world tasks.

Embedded Skills

This literacy practice is comprised of the following broad skills, which students should be encouraged to demonstrate in developmentally appropriate ways:

- ✓ Use creative modes of communication (e.g., writing, visual art, drama, multimedia, oral storytelling, etc.) to express ideas and interpretations of text.
- ✓ Experiment with language, structure, or format to communicate meaning and purpose effectively.
- ✓ Explain how creative choices support meaning, perspective, or message in communication.

Associated ELA Strands and Standards

While Literacy Practices can be applied across standards as teachers see fit within their instructional planning, Literacy Practice 3 – Creativity is closely associated with the English Language Arts and Literacy Content Standards strands of **Writing**, **Research and Inquiry**, and **Speaking and Listening**, where students are frequently asked to make decisions regarding how to express their ideas and revise their work. See these broad standard types below and refer to Appendix C to identify specific grade-level standards that most closely align with Literacy Practice 3 – Creativity.

Writing

- Writing narratives
- Developing writing by engaging in a recursive writing process

Research and Inquiry

- Conducting research to answer a question or solve a problem

Speaking and Listening

- Reporting on a topic or presenting information in a manner appropriate to purpose, task, and audience

---

Literacy Practice 4 – Critical Thinking

Literate students analyze, reason, problem solve, and make decisions.

Rationale

Practicing critical thinking in literacy helps students move beyond surface-level comprehension to analyze ideas, evaluate evidence, and make meaning from complex texts. Through experiences such as close reading, questioning, discussion, and argumentation, students learn to examine

multiple perspectives, identify claims and evidence, and draw reasoned conclusions. These practices strengthen comprehension, support deeper understanding, and help students apply literacy skills across disciplines and real-world contexts.

Critical thinking also supports responsible decision-making as students learn to assess the credibility of sources, recognize bias, and justify their thinking. Engaging in analysis and reasoning requires productive struggle, encouraging students to persist, revise their thinking, and reflect on their learning. By embedding critical thinking into literacy instruction, educators prepare students to navigate complex information, communicate thoughtfully, and participate effectively in academic, civic, and personal contexts.

Embedded Skills

This literacy practice is comprised of the following broad skills, which students should be encouraged to demonstrate in developmentally appropriate ways:

- ✓ Analyze texts, tasks, or information by identifying key ideas, patterns, and relationships.
- ✓ Use evidence and reasoning to support interpretations, claims, or solutions.
- ✓ Evaluate multiple perspectives, sources, or possible solutions to inform decisions.
- ✓ Reflect on reasoning processes and revise thinking based on new information or feedback.

Associated ELA Strands and Standards

While Literacy Practices can be applied across standards as teachers see fit within their instructional planning, Literacy Practice 4 – Critical Thinking is closely associated with the English Language Arts and Literacy Content Standards strands of **Reading - Comprehension**, **Writing**, and **Research and Inquiry** standards that require students to demonstrate higher-order cognitive tasks relating to analysis, evaluation, inferential thinking, the application and articulation of evidence and reasoning, synthesis, reflection, and more as they engage with texts and communicate their learning. See these broad standard types below and refer to Appendix C to identify specific grade-level standards that most closely align with Literacy Practice 4 – Critical Thinking.

Reading - Comprehension

- Citing textual evidence to support inference and analysis
- Explaining or analyzing central themes and main ideas
- Explaining or analyzing text structure
- Explaining or analyzing language and word choice
- Describing or analyzing point of view

Writing

- Writing across the three major writing genres (opinion/argument, informative, narrative)
- Developing writing by engaging in a recursive writing process

Research and Inquiry

- Conducting research to answer a question or solve a problem
- Synthesizing multiple sources of information
- Analyzing information sources

Speaking and Listening

- Participating in a range of collaborative discussions
- Reporting on a topic or presenting information in a manner appropriate to purpose, task, and audience

---

Literacy Practice 5 – Cultural Considerations

Literate students acknowledge and respect diverse cultural perspectives, including those of Montana Indigenous Peoples.

Rationale

Practicing cultural considerations in literacy helps students understand that texts are shaped by cultural identity, history, and perspectives. Through reading, writing, discussion, and inquiry, students learn to recognize multiple ways of knowing, value diverse voices, and engage respectfully with experiences different from their own. Centering cultural perspectives deepens comprehension, strengthens empathy, and supports more meaningful and inclusive literacy learning.

In Montana, this practice is grounded in the state's constitutional mandate for Indian Education for All (IEFA), which affirms the responsibility of schools to teach about the distinct and unique heritage of Montana's Indigenous Peoples. Integrating IEFA into literacy instruction ensures that Native histories, cultures, and contemporary experiences are accurately represented and thoughtfully examined. By embedding cultural considerations into literacy learning, educators support social awareness and critical reflection, while preparing students to participate respectfully in a diverse and interconnected society.

Embedded Skills

This literacy practice is comprised of the following broad skills, which students should be encouraged to demonstrate in developmentally appropriate ways:

- ✓ Reflect on their own perspectives and consider how learning about other cultures deepens understanding.
- ✓ Engage respectfully with perspectives, traditions, and knowledge systems, including those of Montana Indigenous Peoples
- ✓ Analyze how culture, history, and identity influence authors' perspectives, purposes, and meanings.
- ✓ Use culturally responsive language and practices when discussing, writing about, or responding to texts.

Associated ELA Strands and Standards

While Literacy Practices can be applied across standards as teachers see fit within their instructional planning, Literacy Practice 5 – Cultural Considerations is closely associated with the English Language Arts and Literacy Content Standards strands of **Reading – Vocabulary**, **Reading – Comprehension**, and **Research and Inquiry**, standards that require students to examine how culture influences language, perspectives, and texts. See these broad standard types below and refer to Appendix C to identify specific grade-level standards that most closely align with Literacy Practice 5 – Cultural Considerations.

Reading - Vocabulary

- Defining, inferring, or determining the effect of the meaning of words and phrases with cultural significance to Montana Indigenous Peoples

Reading - Comprehension

- Citing textual evidence to support inference and analysis of texts by and about Montana Indigenous Peoples
- Identifying, explaining, and analyzing themes or central ideas in texts by and about Montana Indigenous Peoples
- Determining and analyzing point of view in culturally diverse texts and those by and about Montana Indigenous Peoples
- Comparing and contrasting culturally diverse texts and those by and about Montana Indigenous Peoples

Research and Inquiry

- Conducting research to learn about Montana Indigenous Peoples' cultures, traditions, and perspectives

---

Literacy Practice 6 – Effective Communication

Literate students routinely express their ideas through speaking and writing coherently in a broad range of literary and informational genres.

Rationale

Practicing effective communication in literacy helps students clearly articulate their thinking, convey ideas with purpose, and adapt their language to different audiences, contexts, and genres. Through regular opportunities to speak, write, and present in differing rhetorical situations, students develop organization, clarity, and precision in their communication. These experiences strengthen comprehension and help students transform ideas into well-structured messages.

Effective communication also supports confidence, engagement, and academic success as students learn to revise, clarify, and refine their thinking. By practicing communication across genres and modalities, students develop flexibility and control over language while learning to support ideas with evidence and reasoning. Embedding effective communication into literacy instruction prepares students to participate thoughtfully in academic, civic, and professional settings.

Embedded Skills

This literacy practice is comprised of the following broad skills, which students should be encouraged to demonstrate in developmentally appropriate ways:

- ✓ Clearly articulate ideas and thinking through speaking, writing, and presenting with a defined purpose and message.
- ✓ Adapt language, tone, structure, and form to suit different audiences, purposes, and contexts.
- ✓ Revise, clarify, and refine oral and written communication based on feedback to improve precision, coherence, and effectiveness.

Associated ELA Standards and Strands

While Literacy Practices can be applied across standards as teachers see fit within their instructional planning, Literacy Practice 6 – Effective Communication is closely associated with the English Language Arts and Literacy Content Standards strands of **Reading – Vocabulary**, **Writing** and **Speaking and Listening**, as students engage in decisions regarding how to effectively organize, articulate, and present their learning and ideas in a variety of contexts, through different modes and genres, and to specific audiences. See these broad standard types below and refer to Appendix C to identify specific grade-level standards that most closely align with Literacy Practice 6 – Effective Communication.

Reading – Foundational

- Demonstrating encoding skills

Reading – Vocabulary

- Developing and applying word knowledge through reading and conversation
- Defining, inferring, or determining the effect of the meaning of words and phrases in context

Writing

- Writing across the three major writing genres (opinion/argument, informative, narrative)
- Developing writing by engaging in a recursive writing process
- Demonstrating grade-appropriate command of English when speaking and writing

Speaking and Listening

- Participating in a range of collaborative discussions
- Paraphrasing, summarizing, analyzing, or evaluating information in a variety of media and formats
- Reporting on a topic or presenting information in a manner appropriate to purpose, task, and audience

---

Literacy Practice 7 – Strategic Technology Use

Literate students effectively and responsibly use technology to access and evaluate information to express ideas.

Rationale

Technology shapes how information is created, shared, and interpreted. To be fully literate, students must do more than operate devices; they should understand how to strategically use technology to locate credible information, evaluate sources for accuracy and bias, and communicate ideas effectively to varied audiences. These skills align with the **International Society for Technology in Education (ISTE) Standards**, which emphasize digital citizenship, knowledge construction, creative communication, and educator responsibility in designing purposeful learning experiences using technology. Instruction should focus not only on how to use tools, but also on when, why, and whether technology enhances students' learning. Ongoing conversations with students about authorship, artificial intelligence, collaboration norms, and digital footprints are crucial to help students develop thoughtful practices and agency.

Strategic technology use also requires attention to student data privacy and ethical practices. Montana laws such as Online Protections for Pupils **20-7-1325, MCA** and Pupil Records—Online Privacy Protection **20-7-1326, MCA** establish safeguards to protect student information and limit the use of student data. Educators must carefully vet digital tools and teach students how their data is collected and shared. When technology integration is intentional, privacy-conscious, and grounded in critical thinking, it strengthens students' research skills, communication, and civic readiness.

Embedded Skills

This literacy practice is comprised of the following broad skills, which students should be encouraged to demonstrate in developmentally appropriate ways:

- ✓ Use digital tools and platforms strategically to access information, texts, and media for a defined purpose.
- ✓ Use technology to express ideas clearly and effectively through written, oral, visual, or multimedia formats.
- ✓ Evaluate the credibility, relevance, and bias of digital sources using developmentally appropriate criteria.
- ✓ Synthesize information from multiple digital sources to build understanding or develop ideas.
- ✓ Practice responsible, ethical, and safe technology use, including proper citation and digital citizenship.

Associated ELA Standards and Strands

While Literacy Practices can be applied across standards as teachers see fit within their instructional planning, Literacy Practice 7 – Strategic Technology Use is closely associated with the English Language Arts and Literacy Content Standards strands of **Reading - Comprehension**, **Writing**, **Research and Inquiry**, and **Speaking and Listening**, in standards that require students to read and communicate in multiple genres or media formats and navigate informational and media technologies to gather and evaluate relevant texts and sources. See these broad standard types below and refer to Appendix C to identify specific grade-level standards that most closely align with Literacy Practice 7 – Strategic Technology Use.

Reading - Comprehension

- Determining or analyzing elements or features of a text
- Determining or analyzing text structure
- Comparing and contrasting texts in different genres

Writing

- Writing opinion pieces or arguments
- Writing informative texts

Research and Inquiry

- Gathering, determining the credibility of, and/or synthesizing multiple information sources

Speaking and Listening

- Paraphrasing, summarizing, analyzing, or evaluating information in a variety of media and formats
- Reporting on a topic or presenting information in a manner appropriate to purpose, task, and audience

Literacy Practice 8 – Student Agency

Literate students take an active role in their learning, using guidance and feedback to connect their skills and knowledge to practical applications, college readiness, and career development.

Rationale

Taking an active role in learning empowers students to become purposeful, reflective, and independent learners. When students set goals, monitor their progress, and use guidance and feedback to improve their work, they strengthen both academic skills and self-direction. Connecting literacy learning to practical applications helps students see the relevance of their skills beyond the classroom and supports deeper engagement.

This practice also prepares students for college, career, and civic contexts by fostering habits such as persistence, adaptability, and reflection. As students apply literacy skills to authentic tasks—such as researching career pathways, establishing goals, communicating within CTE courses and career experiences, or solving real-world problems—they develop the ability to transfer knowledge across settings. Embedding active learning into literacy instruction supports readiness for postsecondary success by helping students understand how their skills connect to future opportunities and responsibilities.

Embedded Skills

This literacy practice is comprised of the following broad skills, which students should be encouraged to demonstrate in developmentally appropriate ways:

- ✓ Set goals, monitor progress, and reflect on learning to guide improvement.
- ✓ Apply literacy skills to authentic, real-world, academic, or career-related tasks.
- ✓ Make connections between current learning and future college, career, or civic goals.

Associated ELA Standards and Strands

While Literacy Practices can be applied across standards as teachers see fit within their instructional planning, Literacy Practice 8 – Student Agency is closely associated with the English Language Arts and Literacy Content Standards strands of **Writing**, **Research and Inquiry**, and **Speaking and Listening**, in standards where students engage in a recursive writing process, craft self-determined research questions and locate relevant sources, and make rhetorical decisions based on purpose, audience, and task. See these broad standard types below and refer to Appendix C to identify specific grade-level standards that most closely align with Literacy Practice 8 – Student Agency.

Writing

- Developing writing by engaging in a recursive writing process

Research and Inquiry

- Conducting research to answer a question or solve a problem

Speaking and Listening

- Reporting on a topic or presenting information in a manner appropriate to purpose, task, and audience

MONTANA K-12 ENGLISH LANGUAGE ARTS AND LITERACY CONTENT STANDARDS

This section presents the complete set of Montana's K–12 ELA content standards, outlining what all students are expected to know and be able to do by the conclusion of their K–12 educational journey as outlined in the Administrative Rules of Montana **10.53.4 English Language Arts and Literacy Content Standards**.

While this section provides an overview of the standards, expanded guidance—including detailed notes, instructional examples, and grade-specific considerations—can be found in the corresponding grade-level guidance documents. **Please refer to the grade level of interest for more in-depth support tailored to specific instructional needs.**

What is an English Language Arts and Literacy Content Standard?

A **content standard** in ELA is a specific statement that defines the knowledge, skills, and understandings that students are expected to achieve at a particular grade level or within a course of study (REL Southeast, 2020). Content standards articulate the *what* of student learning, providing clear expectations for the concepts and skills that should be taught by teachers, and in which students should demonstrate proficiency by the end of grade level.

Proficiency in the English Language Arts and Literacy Content Standards

The Administrative Rules of Montana (item 10.55.603) states "Local school districts shall develop and implement a proficiency-based learning model that includes curriculum aligned to all content standards and appropriate learning progressions." As a supportive resource, this section provides a sample proficiency scale that illustrates how the ELA and literacy content standards can be assessed. This example is not mandatory and is intended solely to guide districts in designing their own proficiency-based systems.

When assessing students on content standards, educators should consider multiple forms of evidence, including classroom observations, student self-assessments, projects or performance tasks, formative and summative assessments, and student portfolios. Using clear rubrics and proficiency scales can help educators consistently and accurately measure students' progress and proficiency in ELA.

Notes on Proficiency:

- Proficiency is defined by clearly articulated learning objectives or standards. It is the ability to consistently demonstrate a sufficient level of knowledge, skill, or understanding to meet all specific standards or expectations.
- These targets are often broken into measurable criteria that describe what mastery looks like for a particular skill or concept.
- Proficiency is demonstrated through evidence of learning, such as assessments, projects, or performances that align directly with the standard.
- There are differing views on the quality versus quantity of evidence for mastery; some resources argue that a single demonstration of mastery suffices, while others argue that mastery should be established through multiple assessments. Districts are encouraged to explore and adopt a consistent methodology across classrooms that aligns with their pedagogical philosophy and instructional practice. Engaging in discussions at the local level about district and educator preferences greatly benefits students, educators, and families.

Example Proficiency Rubric

When determining students' proficiency in a content standard, it may be useful to utilize a rubric, such as the one provided on the following page. The first row defines characteristics of each proficiency level, while the second column provides an example of a proficiency rubric based on the 5th grade ELA standard *MT.5.RC.4 - Use key details to compare and contrast two or more elements within a fiction or nonfiction text*.

Beginning	Developing	Proficient	Mastering
The student shows minimal understanding or requires significant support with most of the skills within the standard.	The student demonstrates partial understanding but has not yet mastered each skill within the standard without requiring some support. It may also be the case that the student requires minimal support across multiple skills.	The student is able to engage in each of the skills identified in the content standard with independence and accuracy.	The student may be able to engage in the skills identified in the content standard beyond grade level expectations, showing deeper understanding or application. They may be able to engage in these skills in connection with those of additional content standards.
The student has difficulty identifying important details and the elements being compared (such as characters, events, or ideas). Comparisons are unclear or inaccurate and require significant teacher support.	The student can identify some key details and the elements being compared. They explain basic similarities and differences, but their ideas may be incomplete or need occasional teacher support.	The student independently identifies relevant key details and clearly compares and contrasts two or more elements in a text. Similarities and differences are explained accurately using specific details from the text.	The student thoughtfully selects relevant details to compare and contrast specific elements in a text. They explain deeper or more subtle similarities and differences and connect their comparisons to larger ideas, themes, or author's purpose, working independently.

Achieving proficiency indicates that a student is ready to move on to the next level of learning. Although proficiency is the target goal, all students should be provided with opportunities to demonstrate and develop mastery through rigorous learning tasks.

END OF GRADES 11-12 ENGLISH LANGUAGE ARTS AND LITERACY CONTENT STANDARDS

Montana English Language Arts and Literacy Content Standards Glossary

Automaticity - the ability to read words quickly and effortlessly

Connotative - describes implied ideas or associations beyond the denotative meaning of a word

Decoding - the ability to apply sound-symbol relationships to read words

Encoding - the translation of spoken word or sounds into writing, or spelling

Etymology - the study of the origin of words and the historical development of their meaning

Figurative - describes non-literal or metaphorical use of language

Fluency - the ability to read a text accurately, with appropriate pace and expression; fluency includes the skills of accuracy, automaticity, and prosody

Grapheme - a letter or group of letters that represents a single phoneme

Morpheme - the smallest meaningful unit of language that cannot be further divided, including affixes, prefixes, suffixes, and roots

Morphology - the study of morphemes and how they are combined

Morphological awareness - the recognition, understanding, and use of morphemes that strengthens word recognition and spelling

Phoneme - an individual sound; English is made up of 44 phonemes

Phoneme-grapheme correspondence - the ability to match a phoneme (single sound) to a grapheme (written representation) and vice versa

Phonemic awareness - the ability to recognize and manipulate individual phonemes in spoken language

Phonological awareness - the ability to recognize and manipulate various sounds in spoken language, including word parts, syllables, rhymes, and phonemes

Prosody - reading with appropriate expression and intonation, including pitch, tone, volume, and word emphasis

Rhetoric - the art of effective speaking or writing

Syllabication - the division of words into syllables

Appendix A: K-12 Correspondence with Common Core State Standards

An Important Note

The Montana State Standards are distinct from the Common Core State Standards (CCSS). While some Montana standards remain similar to their CCSS counterparts, many have been significantly revised or newly developed. This correspondence information is provided as a reference tool to help educators understand where conceptual connections may exist between the two sets of standards.

It is important to note that **this correspondence does not imply equivalence**. Educators should not assume that a CCSS-aligned resource automatically addresses the expectations and requirements of the Montana ELA standards. Rather, this tool is intended to support educators in the process of evaluating existing materials, identifying areas of overlap or deviation, and making informed decisions about curriculum and instruction alignment to ensure that they are meeting the expectations of the Montana State Standards.

For the Montana Literacy Practices, no equivalent CCSS standards existed, unlike the 2025 Montana Mathematical Practices, which were based upon the CCSS Mathematical Practices and the 2011 Montana Mathematical Practices.

Because many available curricular resources are built around CCSS, the following charts may serve as a starting point for alignment work in districts and classrooms. However, each **Montana English Language Arts and Literacy Standard must be reviewed individually** to promote accurate delivery during instruction. This is especially true for standards that reference Montana's Indigenous Peoples and local communities, which are unique to our state.

Appendix B: K-12 Standards Vertical Alignment by Strand

This appendix provides examples of the progression of standards across grade levels PK-5. This resource is intended to support educators in understanding the trajectory of a student's development regarding a concept across grade levels, aiding in identifying prerequisite, corequisite, and post-requisite knowledge. Learning concepts are represented by the individual rows in the charts below. This can aid in conversations regarding the identification of power standards, cross-grade level alignment, instructional differentiation, and scope and sequencing within schools and districts.

Decoding

K	1	2	3	4	5	6	7	8	9-10	11-12
Name and produce the most common sounds for all consonants. (MT.K.RFO.3.a)										
Demonstrate knowledge of phoneme-grapheme relationships between consonant graphemes and their most commonly occurring phonemes. (MT.K.RFO.3.b)	Demonstrate knowledge of phoneme-grapheme relationships between consonant digraph and trigraph graphemes and their most commonly occurring phonemes. (MT.1.RFO.2.a)			Decode multisyllabic words using combined knowledge of letter-sound correspondences, syllabication patterns, and morpheme structures. (MT.4.RFO.1)	Decode multisyllabic words using combined knowledge of letter-sound correspondences, syllabication patterns, and morpheme structures. (MT.5.RFO.1)	Decode multisyllabic words accurately using combined knowledge of letter-sound correspondences, syllabication patterns, and morpheme structures. (MT.6.RFO.1)	Decode multisyllabic words accurately using combined knowledge of letter-sound correspondences, syllabication patterns, and morpheme structures. (MT.7.RFO.1)	Decode multisyllabic words accurately using combined knowledge of letter-sound correspondences, syllabication patterns, and morpheme structures. (MT.8.RFO.1)	Decode using combined knowledge of syllabication patterns and morphology to accurately read unfamiliar multisyllabic words in and out of context. (MT.9-10.RFO.1)	Decode using combined knowledge of syllabication patterns and morphology to accurately read unfamiliar multisyllabic words in and out of context. (MT.11-12.RFO.1)
Demonstrate knowledge of phoneme-grapheme relationships between vowel graphemes and short vowel phonemes. (MT.K.RFO.3.c)	Demonstrate knowledge of phoneme-grapheme relationships between common vowel graphemes and long vowel phonemes. (MT.1.RFO.2.b)	Demonstrate knowledge of phoneme-grapheme relationships between all complex vowel phonemes and graphemes. (MT.2.RF.1.a)								
	Demonstrate knowledge of phoneme-grapheme relationships between common r-controlled vowel graphemes phonemes. (MT.1.RFO.2.c)

Encoding

K	1	2	3	4	5	6	7	8	9-10	11-12
Encode words using one-to-one phoneme-grapheme correspondences in VC and CVC words with accuracy. (MT.K.RFO.4.a)	Encode one-syllable words that follow regular spelling patterns. (MT.1.RFO.3.a)	Encode one-syllable words with all phoneme-grapheme patterns. (MT.2.RF.2.a)	Encode multisyllabic words including words with common affixes. (MT.3.RFO.2.a)	Encode multisyllabic words using combined knowledge of taught letter-sound correspondences, syllabication patterns, and morpheme structures. (MT.4.RFO.2)	Encode multisyllabic words using combined knowledge of English graphemes, syllabication patterns, and taught morpheme structures. (MT.5.RFO.2)					
	Encode two-syllable words comprised of closed syllables that follow regular spelling patterns. (MT.1.RFO.3.b)	Encode two-syllable words comprised of different syllable types that follow regular spelling patterns. (MT.2.RF.2.b)	Encode two-syllable words comprised of different syllable types that follow regular spelling patterns. (MT.3.RFO.2.b)							
	Encode words with inflectional endings, focusing on words that retain their root spelling when an inflectional ending is added. (MT.1.RFO.3.c)	Encode words with common prefixes and suffixes, including words that require a spelling change to the root when adding an inflectional ending. (MT.2.RF.2.c)	Encode words with common prefixes and suffixes, including words that require a spelling change to the root when adding an inflectional ending. (MT.3.RFO.2.c)							
Print upper and lowercase letters. (MT.K.RFO.4.b)	Print upper and lowercase letters with automaticity. (MT.1.RFO.3.d)	Print upper and lowercase letters with automaticity and accuracy, including the introduction of cursive. (MT.2.RF.2.d)								

Reading-Vocabulary

K	1	2	3	4	5	6	7	8	9-10	11-12
Use word learning strategies to determine or clarify the meaning of unknown and multiple-meaning words and phrases. (MT.K.RV.1)	Use word learning strategies to determine or clarify the meaning of unknown and multiple-meaning words and phrases. (MT.1.RV.1)	Use word learning strategies, including knowledge of morphemes, to determine or clarify the meaning of unknown and multiple-meaning words and phrases. (MT.2.RV.1)								
Develop and apply expanding word knowledge through shared reading and classroom conversation. (MT.K.RV.2)	Develop and apply expanding word knowledge through shared reading and classroom conversation. (MT.9-10.RFL.1)	Read grade-appropriate text with fluency, which includes accuracy, automaticity, and prosody, to support oral and silent reading comprehension. (MT.11-12.RFL.1)
Read common high-frequency words with accuracy and automaticity. (MT.K.RFL.1)	Read common high-frequency words with accuracy and automaticity. (MT.1.RFL.2)	Read common high-frequency words with accuracy and automaticity. (MT.2.RFL.2)								

Reading-Comprehension

K	1	2	3	4	5	6	7	8	9-10	11-12
With prompting and support, ask and answer questions about key details in text read aloud and presented through other media, including texts by and about Montana Indigenous Peoples. (MT.K.RC.1)	Ask and answer questions about key details in text read aloud and presented through other media, including texts by and about Montana Indigenous Peoples. (MT.1.RC.1)	Ask and answer questions about shared text to demonstrate an understanding of key details, including texts by and about Montana Indigenous Peoples. (MT.2.RC.1)	Ask and answer questions to demonstrate understanding of a text, referring explicitly to the text as a basis for the answers, including those by and about Montana Indigenous Peoples. (MT.3.RC.1)	Refer to specific details and examples in a text to explain what it explicitly states and to draw inferences, including those by and about Montana Indigenous Peoples. (MT.4.RC.1)	Quote accurately from a text when explaining what the text says explicitly and when drawing inferences from the text, including those by about Montana Indigenous Peoples. (MT.5.RC.1)	Cite textual evidence that supports analysis of what a text explicitly states, as well as inferences drawn from the text, including those by and about Montana Indigenous Peoples. (MT.6.RC.1)	Cite several pieces of textual evidence to support analysis of what a text explicitly states, as well as inferences drawn from the text, including texts by and about Montana Indigenous Peoples. (MT.7.RC.1)	Cite the textual evidence that most strongly supports an analysis of what a text explicitly states, as well as inferences drawn from the text, including those by and about Montana Indigenous Peoples. (MT.8.RC.1)	Cite textual evidence to support analysis of both explicit and inferred meanings, including those by and about Montana Indigenous Peoples. (MT.9-10.RC.1)	Cite textual evidence to support analysis of both explicit and inferred meanings, including texts by and about Montana Indigenous Peoples. (MT.11-12.RC.1)
Retell a familiar story. (MT.K.RC.2)	Retell a story. (MT.1.RC.2)	Recount a portion of a text. (MT.2.RC.2)	Paraphrase a text. (MT.3.RC.2)	Summarize a portion of a text. (MT.4.RC.2)	Summarize a text. (MT.5.RC.2)	Provide an objective summary of the text. (MT.6.RC.2)	Provide an objective summary of the text. (MT.7.RC.2)	Provide an objective summary of the text. (MT.8.RC.2)	Provide an objective summary of a text. (MT.9-10.RC.2)	Provide an objective summary of a text. (MT.11-12.RC.2)
With prompting and support, participate in discussions about the central idea and key details in a text, including those by and about Montana Indigenous Peoples. (MT.K.RC.3)	Participate in discussions about the central ideas and key details in a text, including those by and about Montana Indigenous Peoples. (MT.1.RC.3)	Determine the central ideas and key details in a text, including those by and about Montana Indigenous Peoples. (MT.2.RC.3)	Identify and explain a stated central idea or theme and how it is developed with key details in a text, including those by and about Montana Indigenous Peoples. (MT.3.RC.3)	Identify and explain a stated or implied central idea or theme and how it is developed with key details in a text, including those by and about Montana Indigenous Peoples. (MT.4.RC.3)	Explain the development of a stated or implied central idea or theme over the course of a text, including those by and about Montana Indigenous Peoples. (MT.5.RC.3)	Determine a theme or central idea of a text and explain how it is conveyed through particular details, including those by and about Montana Indigenous Peoples. (MT.6.RC.3)	Determine a theme or central idea of a text and analyze its development over the course of the text, including those by and about Montana Indigenous Peoples. (MT.7.RC.3)	Analyze the development of a theme or central idea over the course of the text and its relationship to specific elements of the text, including those by and about Montana Indigenous Peoples. Appendix C: English Language Content Standards and Associated Literacy Practices

This appendix features correlations between the ELA standards and Literacy Practices that are most apparently exemplified by or associated with the standard and could be addressed simultaneously along with the standard. However, these associations are intended to be utilized as a starting point and are not prescriptive, nor do the suggested associations rule out any unlisted literacy practices from being paired with a given standard. When—and how—to address to each of the literacy practices is flexible and ultimately determined by the teacher's instruction.

Appendix D: K-12 Science of Reading and Standards Correspondences

During the research stage of the ELA standards revision process, opportunities for enhancements to Montana's content standards were identified. One such goal was to update the standards to include the most recent research and evidence on effective English language arts and literacy teaching and learning, integrating research on the science of reading and evidence-based literacy instruction at both the elementary and secondary levels.

The science of reading is defined by The Reading League as a "vast, interdisciplinary body of scientifically-based research about reading and issues related to reading and writing" that has "culminated in a preponderance of evidence to inform how proficient reading and writing develop; why some have difficulty; and how we can most effectively assess and teach and therefor, improve student outcomes through prevention of and intervention for reading difficulties" (The Reading League, 2022).

This appendix aims to highlight reading components undergirding individual content standards, presented in the tables below. For the purposes of identifying the intersections between foundational science of reading components and Montana's ELA content standards, knowledge and skills from the National Reading Panel's (NRP) 2000 report and foundational literacy frameworks—including The Simple View of Reading (Gough & Tunmer 1986; Hoover & Tunmer 2022), Scarborough's Reading Rope (2001), and Duke and Cartwright's Active View of Reading Model (2021)—are used to constitute the following correspondence components:

Word Recognition (Decoding and Sight Recognition of Words)

- Phonemic Awareness
- Phonics - Decoding
- Phonics - Encoding
- Reading Fluency

Language Comprehension (Understanding and Making Meaning)

- Vocabulary
- Vocabulary - Morphological Awareness
- Verbal Reasoning
- Literacy Knowledge
- Language Structure
- Background Knowledge
- Oral Language

Appendix E: Indian Education for All (IEFA) Integration Guidelines

The Montana English Language Arts and Literacy Standards also reflect the constitutional mandate to provide instruction that includes the distinct and unique heritage and contemporary contributions of American Indians in a culturally responsive manner (Montana Constitution Article X Section 1(2) and statutes §20-1-501 and §20-9-309 2(c), MCA). This allows students to recognize and respect historical and contemporary knowledge across the unique cultures of Montana's 12 federally recognized tribes, ensuring that the teaching of ELA in Montana integrates cultural understanding, respect, and relevance for all Montana students.

This section includes general guidelines for integrating Indian Education for All across the K-12 continuum and identifies high-quality resources for educators.

Requirements

Specific standards within Montana's English Language Arts and Literacy Content Standards reference Montana's Indigenous Peoples, although educators are encouraged to incorporate culturally responsive content across standards. This reflects the state's commitment to Indian Education for All (IEFA) and is an essential component of student proficiency for those standards. Educators are expected to align instruction and assessment for these standards with content that reflects the cultures, histories, and contributions of Montana's 12 federally recognized tribes.

Instructional materials and classroom activities should be consistent with the **Indian Education for All Framework**, which provides detailed guidance for integrating the **Essential Understandings Regarding Montana Indians** and recommended multicultural education approaches. This alignment supports the intent of the standards and Montana's constitutional commitment to preserving and honoring the cultural integrity of its Indigenous communities.

Resources

There are many resources available to support educators in integrating IEFA into ELA. Some examples include:

- The **OPI Indian Education For All webpage** provides classroom resources, videos, and lesson plans.
    - OPI's Indian Education for All program also offers **Language Arts resources** organized by grade level. However, keep in mind that resources from other subject areas may also work for integration within ELA lessons.
    - **Class Sets of Books** to borrow are available, along with full IEFA unit plans for commonly taught novels aligning. Note that while all of these texts highlight Indigenous knowledge, they do not all center upon Montana Indigenous peoples. Care should be taken to ensure that resources featuring Montana Indigenous peoples are integrated into unit plans.
- **National Indian Education Association Digital Resources** for Schools, Teachers, Parents, and Students. This resource provides professional learning, digital lessons and tasks, projects, and parent resources.

- Confederated Salish Kootenai Tribes (CSKT) educational resources although not content-specific, this resource includes lessons and activities that integrate many content areas, such as science, history, land management, and climate, through the perspective of the CSKT.
- Little Shell Tribe Our Culture shares many traditional teachings, cultural stories, and lessons. Although not content-specific, this resource provides an opportunity for educators to better understand the cultural practices and stories of the Little Shell People.
- PBS Learning Media – Montana PBS provides multiple videos, documents, lessons, and images relating to American Indians all over the US, including many of the 12 tribes of Montana.
- Directory of Indian Education Programs in Montana: This directory includes contact information for all Tribal governments, universities and colleges, Tribal education specialists, etc.
- Native Knowledge 360°: This website from the Smithsonian Museum of the American Indian is designed for educators and contains interactive lessons and resources to teach about Indigenous histories and cultures.

Professional Learning

Though there are frequent and varied IEFA and ELA integrated professional learning sessions available at districts and conferences around the state, the OPI offers some recurring opportunities, specifically:

- Teacher Learning Hub courses
    - Indian Ed & Math Seamless Integration (2 PDUs)
    - An Introduction to Indian Education for All in Montana (2 PDUs)
    - Bison Restoration and Tribal Sovereignty in Montana (3 PDUs)
    - The Framework: A Practical Guide to Implementing IEFA (4 PDUs)
    - Building Your IEFA Mindset: Unpacking the Essential Understandings (15 PDUs)
    - Building Your IEFA Mindset: Culturally Responsive and Informed Teaching for All (15 PDUs)
    - Braiding Sweetgrass: A Book Study (2 PDUs)
- The OPI IEFA Best Practices Conference (occurs every spring)
- Recurring professional learning events and webinars
- National Indian Education Association Professional Development Events
- Native Knowledge 360°: Professional Development

Appendix F: Assessment

This section aims to provide general guidance on statewide assessments. This can aid in understanding educator, school, and district responsibilities related to assessing the Montana English Language Art and Literacy Content Standards.

State Assessment

State testing measures student proficiency and progress on state content standards over time. The participation requirement to administer statewide assessments is required under federal and state law including:

- **ESSA Section 1111(b)(2) Academic Assessments**
  - (A) IN GENERAL.—Each State plan shall demonstrate that the State educational agency, in consultation with local educational agencies, has implemented a set of high-quality student academic assessments in mathematics, reading or language arts, and science. The State retains the right to implement such assessments in any other subject chosen by the State.
  - (B) REQUIREMENTS.—The assessments under subparagraph (A) shall— (i) except as provided in subparagraph (D), be— (I) the same academic assessments used to measure the achievement of all public elementary school and secondary school students in the State; and (II) administered to all public elementary school and secondary school students in the State; (ii) be aligned with the challenging State academic standards, and provide coherent and timely information about student attainment of such standards and whether the student is performing at the student's grade level.

- ARM 10.56.101 **Statewide Assessment**
  - (1) By the authority of 20-2-121(12), MCA and ARM 10.55.603, the Board of Public Education adopts rules for state-level assessment in the public schools and those private schools seeking accreditation.
  - (2) The Board of Public Education (board) recognizes that the primary purpose of assessment is to serve learning. A balanced assessment system including formative, interim, and summative assessments aligned to state content standards, will provide an integrated approach to meeting both classroom learning needs and school and state level information needs. A balanced assessment system is structured to continuously improve teaching and learning and to inform education policy.
  - (3) may not be construed to require a school district to provide these assessments if the state does not have a current contract with test vendors for provision of these assessments to Montana school districts.
  - (4) The Superintendent of Public Instruction shall recommend in writing to the Board of Public Education any modifications to the single system of statewide assessments as set forth in (2). The Board of Public Education may consider recommended modifications as an information item on an agenda at a Board of Public Education meeting. At that meeting, the Board of Public Education may vote to list the recommendations as an action item on the agenda of a subsequent Board of Public Education meeting. Unless approved by

the Board of Public Education, no recommended modifications are effective, and no accredited schools may implement the recommended modifications.

- (5) When developing a recommendation to the Board of Public Education for adopting statewide assessments the Superintendent of Public Instruction will include implications including alignment to content standards.
- (6) The Superintendent of Public Instruction shall: (a) ensure Montana educators participate in the process; (b) ensure that all statewide test items are field tested before being used to determine proficiency; and (c) request approval from the Board of Public Education to allow for census field testing before determining proficiency.

- **ARM 10.56.102 Participation**
  - (1) By the authority of 20-2-121(11), MCA, and ARM 10.55.603, the Board of Public of Education (board) adopts rules for statewide assessment in all public and accredited nonpublic schools.
  - (2) Statewide assessments approved by the Board shall be administered in all public and accredited nonpublic schools.
  - (3) School districts shall annually administer statewide assessments to all students in accordance with state and federal laws and regulations that meet or exceed the following specifications:
    - (a) English language arts and mathematics assessments shall be aligned to Montana content standards in English language arts and mathematics and administered in grades 3-8 and 11;
    - (b) Science assessments shall be aligned to Montana content standards for science and administered in grades 5, 8, and 11; and
    - (c) Assessments shall be administered in the spring of each year.
  - (4) State-level assessments aligned to Montana-English language proficiency standards shall be administered to all students identified as English Learners (EL) in grades (K-12). These assessments shall be administered mid-school year.

Information on current statewide assessments can be found on the OPI Statewide Assessment Webpage.

Appendix G: Program and Curriculum Standards

This appendix outlines the program requirements for English language arts and literacy instruction in Montana, as defined by the **Administrative Rules of Montana (ARM)**. It includes a table summarizing relevant ARM items, along with brief overviews of their content. This appendix also offers resources to help districts select and develop ELA curricula that meet state requirements and support local educational priorities.

10.55.602	DEFINITIONS (32) "Program area standards" means the subject matter Montana school districts are required to offer and the strategies and proven practices used to instruct. The program area standards include: English language arts, arts, health enhancement, mathematics, science, social studies, career and technical education, technology, workplace competencies, library media, world languages, and school counseling. (33) "Program delivery standards" means the conditions and practices school districts are required to provide ensuring that every student is afforded educational opportunities to learn, develop, and demonstrate achievement in content standards and content-specific grade-level learning progressions.
10.55.603	CURRICULUM AND ASSESSMENT Outlines requirements of districts to implement a proficiency-based learning model; review, update, and align learning programs following standards revisions; assess student progression, growth, and proficiency; review curricula and assessment processes; and more. Districts should review this information to ensure curricular and assessment practices are aligned with Administrative Rule.
10.55.701	BOARD OF TRUSTEES Outlines requirements on local boards of trustees to comply with local, state, and federal regulations; details what must be made available to the public; defines conditions that must be established to create a positive school climate; establishes the board's role in establishing an ISAP; outlines how the board might establish and implement additional policies by engaging stakeholders; and more. Districts should review this information to confirm that the local board of trustees' activities are aligned with the Administrative Rule.

10.55.803	LEARNER ACCESS Outlines equal opportunities for all students, which must be assured by the local board of trustees. Districts should review this item to ensure that all students have equal opportunities to learn in all program areas, across all levels.
10.55.901	BASIC EDUCATION PROGRAM: ELEMENTARY Outlines basic program requirements for elementary programs aligned to content standards and grade band learning progressions; recognizes the distinct and unique cultural heritages of American Indians; and includes instruction in reading and writing literacy. Districts should review this item to assess elementary program coherence.
10.55.902	BASIC EDUCATION PROGRAM: MIDDLE GRADES Outlines basic program requirements for Middle school, 7th/8th grade, or junior high school programs including: adherence to program, content, and grade-band progressions standards that recognize the unique and distinct cultural heritages of American Indians; specific areas the program must address; minimum course requirements; instructional time; and more. Districts should review this item to assess middle-grade program coherence.
10.55.904	BASIC EDUCATION PROGRAM OFFERINGS: HIGH SCHOOL Outlines the requirements for a basic high school education program including alignment to content standards, learning progressions; and inclusion of unique cultural heritages of American Indians and minimum course offerings. Districts should review this item to assess high school program coherence.
10.55.905	GRADUATION REQUIREMENTS Outlines the minimum graduation requirements for high school students.
10.55.1001	PROGRAM STANDARDS (1) It is the local board of trustees' responsibility to ensure the district's curricula align with the state content standards and content-specific grade-level learning progressions.

10.55.1003	PROGRAM FOUNDATION STANDARDS Outlines the common conditions and practices that must be evident in all school systems within Montana. Districts should review this item to assess program coherence across the PK-12 continuum.
10.55.1101	ENGLISH LANGUAGE ARTS AND LITERACY PROGRAM DELIVERY STANDARDS Outlines the general requirements for ELA and literacy programs. Districts should review this item to assess ELA program coherence across the PK-12 Continuum.

Curriculum Development and Selection Resources

OPI has developed **Curriculum Review and Selection Documents** to assist educators in conducting curriculum reviews and selecting new content-area high-quality instructional materials for their districts. The documents detail the steps of the curriculum implementation cycle, provide checklists for reviewing and selecting curriculum, and define curriculum, standards, and high quality instructional materials, in addition to providing resources, templates, and guidance on forming curriculum committees and communicating about the curriculum review and implementation process with educational and community stakeholders.
