Indiana Academic Standards Context and Purpose

Introduction

The Indiana Academic Standards for Grade 2 English/Language Arts are the result of a process designed to identify, evaluate, synthesize, and create high-quality, rigorous learning expectations for Indiana students.

Pursuant to Indiana Code (IC) 20-31-3-1(c-d), the Indiana Department of Education (IDOE) facilitated the prioritization of the Indiana Academic Standards. The standards are designed to ensure that all Indiana students, upon graduation, are prepared with essential knowledge and skills needed to access enlistment, enrollment, and employment opportunities.

All standards are required to be taught. Standards identified as essential for mastery by the end of each grade level are indicated with shading and an “E”. The learning outcome statement for each domain immediately precedes each set of standards.

What are the Indiana Academic Standards and how should they be used?

The Indiana Academic Standards are designed to help educators, parents, students, and community members understand the necessary content for each grade level, and within each content area domain, to access enlistment, enrollment, and employment opportunities. These standards should form the basis for strong core instruction for all students at each grade level and content area. The standards identify the minimum academic content or skills that Indiana students need in order to be prepared for postsecondary success, but they are not an exhaustive list.

While the Indiana Academic Standards establish key expectations for knowledge and skills and should be used as the basis for curriculum, the standards by themselves do not constitute a curriculum. It is the responsibility of the local school corporation to select and formally adopt curricular tools, including textbooks and any other supplementary materials, that align with Indiana Academic Standards. Additionally, corporation and school leaders should consider the appropriate instructional sequence of the standards as well as the length of time needed to teach each standard. Every standard has a unique place in the continuum of learning, but each standard will not require the same amount of time and attention. A deep understanding of the vertical articulation of the standards will enable educators to make the best instructional decisions. These standards must also be complemented by robust, evidence-based instructional practices to support overall student development. By utilizing well-chosen instructional practices, other areas such as STEM and employability skills can be developed in conjunction with the content standards.

Content-Specific Considerations

The Indiana Academic Standards for Grade 2 English/Language Arts consist of four domains: Reading Foundations, Reading Comprehension, Writing, and Communication and

Collaboration. The skills listed in each domain indicate what students should know and be able to do by the end of the grade level. It is important that all students can comprehend texts of steadily increasing complexity as they progress throughout the grade level.

Acknowledgments

The Indiana Department of Education appreciates the time, dedication, and expertise offered by Indiana's K-12 teachers, higher education professors, and other representatives who contributed to the development of these standards. We wish to specially acknowledge the committee members, as well as participants in the public comment period, who dedicated many hours to the review and evaluation of these standards designed to prepare Indiana students for postsecondary enlistment, enrollment, and employment.
